

JOBSPOTTER

*Spotting Opportunities,
Empowering Communities*

JobSpotter is your go-to app for connecting with skilled professionals and discovering local gigs within Digos City. Simplifying the process of finding talent and opportunities, it's the ultimate platform for businesses and freelancers in our community.

KEY FEATURES

01

JobSpotter **search feature** allows users to efficiently **filter** job postings by preferred location, job title, and other criteria. This streamlined search functionality ensures that users can quickly find job opportunities that best match their preferences and qualifications.

02

JobSpotter features a unique **proposal** system where employees can submit tailored proposals directly to clients, showcasing their skills and fit for specific job opportunities.

03

JobSpotter features a **messaging** system that facilitates seamless communication between employees and employers.

04

The **Profile** page serves as a portfolio and resume for both employees and employers. It showcases detailed user information.
